SUMMARY

Senior Frontend Developer with 7+ years building production web products across EdTech, healthcare, sports data, and telecom. Currently leading frontend for a multi-tenant School ERP and two EdTech platforms (AbacuSync and a Vedic Math product) at SR Edu Technologies, owning architecture, UI systems, sprint planning, and shipping. Specialised in **agentic AI workflows**: Claude Code, OpenAI Codex, and Cursor for code; Claude Design and Google Stitch for rapid UI prototyping. Used as a force multiplier to ship features 3 to 5 times faster while maintaining code quality. Strong across React, Next.js, Vue, Nuxt, TypeScript, and Tailwind, with backend fluency in Laravel and Supabase.

SKILLS

Frontend: React, Next.js, Vue, Nuxt, Svelte, TypeScript, Redux, Tailwind CSS, Bootstrap, SASS, HTML, CSS, JavaScript

AI and Agentic Tooling: Claude Code (Desktop App and CLI), OpenAI Codex, Cursor, Claude Design, Google Stitch, Agentic AI Workflows, MCP Integrations, Prompt Engineering, AI-assisted Code Review

Backend and Data: Laravel, REST APIs, Supabase, PostgreSQL, JSP, PHP

Cloud, Payments and DevOps: AWS, Razorpay, Stripe, Git, GitHub, JIRA, CI/CD basics

UI Systems and Visualization: Component Libraries, Design Systems, MUI, AdminLTE, Chart.js, Real-time Dashboards

Methodologies: Agile/Scrum, Sprint Planning, Architecture Design, Code Reviews, Mentoring

PROFESSIONAL EXPERIENCE

Senior Frontend Developer

SR Edu Technologies Pvt Ltd | Full-time

May 2025 - Present | Hyderabad, Telangana, India | On-site

- Lead frontend development of a multi-role School ERP platform (Admin, School, Branch, Teacher, Parent) used across multiple schools, owning architecture, sprint planning, and UI delivery.
- Built **AbacuSync**, a digital abacus and mental-math EdTech platform with a 4-level content hierarchy (Levels > Units > Topics), student progress tracking, and admin CRM.
- Developed a **Vedic Math** platform frontend from scratch, including quiz systems, final test modules, and level-based learning flows.
- Integrated **Razorpay** payment gateway for subscription and course-purchase flows; structured cascading product configuration logic for course and level mapping.
- Pioneered **agentic AI coding workflows** using Claude Code (Desktop App and CLI), OpenAI Codex, and Cursor, running parallel agents for feature work, refactors, and code review. Reduced feature development time by approximately 40 percent while maintaining code quality.
- Established a **design-to-code pipeline** using Claude Design and Google Stitch for rapid UI prototyping, with structured handoff into Claude Code for implementation. Compressed ideation-to-shippable-component cycles from days to hours.
- Led UI modernization sprint, migrating mixed UI stack (AdminLTE, Bootstrap, MUI, PrimeReact) to a standardized React component system on Tailwind and MUI; planned 70-ticket Jira backlog across 5 sprints.
- Mentored junior developers on Git workflows, AI-assisted development, and component-driven architecture.

Senior Associate, Development (JS)

Sportz Interactive | Full-time

Aug 2024 - Apr 2025 | Mumbai, Maharashtra, India | Hybrid

- Built and maintained complex sports-data web applications with real-time data visualization and high-traffic frontend performance requirements.
- Optimized rendering pipelines and component architecture for low-latency live sports updates.
- Collaborated cross-functionally with backend, design, and QA teams in fast-turnaround release cycles.

Frontend / UI Developer

RelifeMS | Full-time

May 2022 - Apr 2024 | Mumbai, Maharashtra, India | On-site

- Owned frontend development of a healthcare web platform, delivering accessible, responsive interfaces using Vue and Nuxt.js.
- Implemented a SASS-based design system, improving UI consistency across the product suite.
- Collaborated with backend and UX teams in 2-week Agile sprints to ship features at high quality.

Senior User Interface Developer

Pert Telecom Solutions Private Limited (PertSol) | Full-time

Jul 2021 - May 2022 | Mumbai, Maharashtra, India | On-site

- Developed JSP and Bootstrap-based enterprise telecom dashboards with jQuery-driven dynamic data rendering.
- Delivered rapid UI bug fixes and feature enhancements in a fast-paced telecom environment.

Web Developer

72 Dragons | Full-time

Mar 2019 - Jun 2021 | Mumbai, Maharashtra, India | Remote

- Built full-stack web applications using React, Vue, PHP, and Bootstrap for diverse client projects.
- Delivered client-facing data dashboards using Chart.js with unit-testing coverage.

Operations Executive

Googolplex Academy India | Full-time

Jan 2016 - Feb 2019 | Mumbai Metropolitan Region | Hybrid

- Managed end-to-end operational processes for an EdTech academy, coordinating between faculty, students, and management teams.
- Drove process documentation and workflow optimization, reducing operational bottlenecks across departments.
- Built early exposure to the EdTech industry, the domain I now build products for as a Frontend Developer.

EDUCATION

Bachelor of Engineering, Electrical, Electronics and Communications Engineering

University of Mumbai | 2012 - 2015 | Grade: First Class

KEY ACHIEVEMENTS

- Pioneered **agentic AI workflows** at SR Edu Technologies (Claude Code, OpenAI Codex, Claude Design, Google Stitch), cutting feature development time by approximately 40 percent.
- Architected and shipped **three EdTech products** in production: School ERP, AbacuSync, and a Vedic Math platform.
- Led a **UI modernization program** across a legacy multi-library frontend, standardising on a single React component system.
- Cross-domain frontend experience across **EdTech, Healthcare, Sports Data, and Telecom**.
